<p>1. As Vienna Station's comment to reference dispatch, we should like to point out here for the record that, while approving small arms caches for AEB stay-behind assets, Vienna Station is not ready at the present time to proceed with support activities covered in paragraph 4 of reference, namely, the furnishing to certain AEB agents of hunting rifles together with telescopic sights. The policy for this aspect of CIRCUMSTANTIAL should be at the present time:</p> <p>a) Small arms caches with appropriate ammunition;</p> <p>b) In those cases where a specific agent <sup>to</sup> when it is determined that small arms should be issued, to receive them and keep them legally without attracting any attention likely to reflect upon them cover-wise. This will be approved on an individual basis.</p> <p>c) Periodic training in the use of small arms, where feasible and carefully laid on, will be carried out both for training and for morale purposes.</p> <p>2. Within the framework of the above factors, AEB is requested to draw up on a schematic basis a suggested list of small arms caches and supplies to be discussed with [ ] on 4 August when the latter arrives in Munich.</p>
